PROJECTS

Spotify-clone - MERN Stack

Developed a fully responsive Spotify-inspired music streaming web app with features like song search, playlist browsing, and audio playback using React and Spotify Web API. Implemented global state management with Redux and ensured seamless navigation and persistent playback using React Router.

KEY FEATURES:

- Real-time music playback with play, pause, and skip controls
- Dynamic search for songs, artists, and albums
- Playlist browsing with track metadata and artwork
- API integration with Spotify Web API for live content

Fitness Management System - MERN Stack

Developed a full-stack web application for managing home-based fitness and diet plans tailored to user goals and budgets. Integrated personalized workout categories, budget-based diet plans, calorie calculator,

and meal reminders for an interactive and goal-oriented fitness experience.

KEY FEATURES:

- Goal-based workout plans (e.g., Weight Gain, Fat Loss, Muscle Building)
- Budget-friendly diet plans with pre/post-workout meals
- Calorie calculator to recommend daily intake
- Meal reminders based on selected schedule
